Mr. A. S. Manley, Treasurer
National Colored Baseball League
Newark, New Jersey

Dear Mr. Manley:

While I have never had the opportunity of meeting you personally, I do feel that I know you as the result of the many times that I have heard Bob Quinn, president of the Boston National League Baseball Club, speak of you, and as a result of Mr. Quinn's very high regard for you personally, and also as a result of the very satisfactory dealings with you and the Colored League during the time that he was with the Brooklyn Baseball Club.

I have always instructed my organization, both the Wilson Company and the Horace Partridge Company to cooperate in every manner with any members of your League, with the thought in mind of being of mutual service to each other. Naturally, I was disappointed when Mr. Black, representing Mr. Greenlee of the Pittsburgh Club, brought two checks to our Philadelphia branch last July in the amounts of \$76.97 and \$109.96 and both of these checks were returned by the bank as "no funds."

We have repeatedly called the attention of these checks to Mr. Greenlee, but have been unsuccessful in having him make the checks good. This is unnecessarily a reflection on your League, and I am very confident that you or your associates in the Colored League understand a situation of this kind.

I would appreciate your bringing this to the attention of Mr. Greenlee and requesting him to make good these checks and in the instance of him failing to do so, I am of the opinion that your League would want to take some action.

I trust that you will pardon me for annoying you with a matter of this kind, but I am confident that for the best future interest of your League, you do not want an outstanding situation of this kind continuing to exist.

Anything you will do or the League will do to see that these checks are taken care of will eliminate any favorable action that might prove detrimental to your League.

We will certainly more than appreciate your attention to this matter.

Cordially yours,

HORACE PARTRIDGE
